SUMMARY

AI Engineer and Full Stack Developer with 1.5+ years of experience building web applications and AI-powered tools. Delivered company and client systems including an E-Bidding platform for ANANDA, working across Next.js, NestJS and PostgreSQL, with hands-on experience in LLMs and prompt engineering. B.Sc. in Computer Science with Second-Class Honors.

EXPERIENCE

- AI Engineer** — Beatrix Co., Ltd. Oct 2025 – Present
- Full-stack developer on the **E-Bidding platform for ANANDA** (see Client Projects), building both the web UI and backend APIs.
 - Tested the Alphaslink system, improved the performance of the thai-link website, and designed UX/UI in Figma.
- AI Software Engineer** — Enabridge Co., Ltd. Jul 2025 – Sep 2025
- Worked on full-stack development, prompt engineering and database design, using AI CLI and MCP tools.
- Frontend Developer** — Kaowna Broker Sep 2024 – Nov 2024
- Developed financial and tax calculation websites and company content pages.
- Frontend Developer (Intern)** — Strategy and Planning Office, Suan Dusit University Jul 2024 – Aug 2024
- Developed the university assessment system and analyzed evaluation data across the university.

CLIENT PROJECTS

- E-Bidding System — ANANDA (via Beatrix Co., Ltd.)** 2025 – 2026
- Online procurement bidding platform for sourcing projects, bidding events and supplier bids. My contributions:

 - Event lifecycle:** publishing, editing, extending/shortening deadlines, and closing or reopening bidding events.
 - Supplier management:** vendor Excel import with validation, supplier profiles, search and pagination.
 - Approval workflow:** approval request tracking with email notification templates, plus Excel export from dashboards.
 - Client collaboration:** gathered feedback directly from the client and implemented the requested changes and fixes.

[Next.js](#) · [NestJS](#) · [PostgreSQL](#) · [TypeORM](#) · [Docker](#)
- Foreign Worker Management System — TMML** 2026

Freelance: back-office system for a labor recruitment company. Tested system functionality, reported bugs to the development team, and wrote the user documentation.

[Testing](#) · [Bug Reporting](#) · [Documentation](#)
- V.N.S. Engineering Hydraulic — website** 2026

Bilingual company website with product catalog, company profile and contact pages for a hydraulic fittings manufacturer.

[Next.js](#) · [next-intl](#) · [Supabase](#) · [Tailwind CSS](#)
- PIMMZ — pimmz.club** 2026

Procurement club and business networking platform where members post buy/sell listings, services and training seminars.

[React](#) · [Vite](#) · [Material UI](#)
- Website Content Migration — Bank of Thailand** 2023

Migrated images, publications and text content from the legacy website to the new platform.
